## 1. WHAT IT IS?

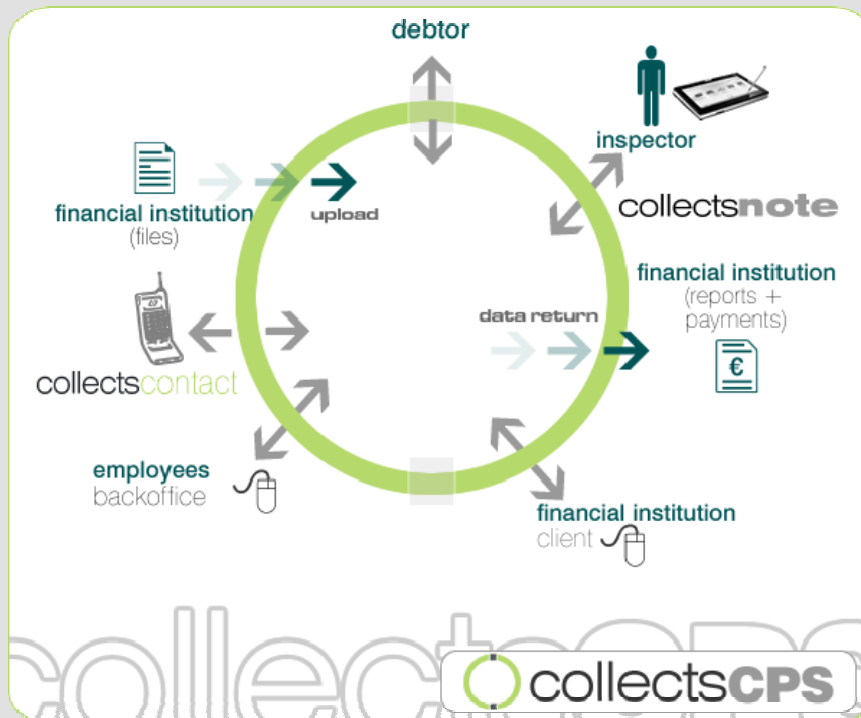

- LOGICOMER's core business lies in the area of Management and Recovery of Debt and acts throughout the collection process from the preventive phase right until the final phase of the debt – the pledge.
- COLLECTSNOTE is an extension of COLLECTSCPS, endowed with capacity for portability which allows our credit inspectors to enhance their daily activities leading to significant improvement throughout the collection process.
- These are computer applications, developed internally by LOGICOMER by using state-of-the-art technology which function together via data cross-checks.
- COLLECTSNOTE is available online. This application allows one to disclose information in real time and proceed with the respective integration with the LOGICOMER system. All the information is controlled by the company.
- The constant need to innovate, to fulfil, to adapt and to improve as well as environment-related concerns contributed toward the creation of COLLECTSNOTE.

## COLLECTSNOTE:

- ✓ An innovative system that interconnects the credit inspector's activity and COLLECTSCPS, in real time;
- ✓ Supported by Tablet PC, Laptops, Computers;
- ✓ Created, developed and controlled by LOGICOMER;
- ✓ A complex combination of the most varied, developed and updated computer applications;
- ✓ Increases production capacity;
- ✓ Cost rationalisation;
- ✓ High service quality;
- ✓ Highly qualified human resources;
- ✓ Increase in efficiency and effectiveness levels;
- ✓ Better information resulting from visits to "debtors".

## 2. HOW IT WORKS

- ✓ 100% on-line, 24/day with high levels of safety;
- ✓ Continually updated information;
- ✓ Real time synchronisation with the central data system via Web services;
- ✓ Access to the system by our credit inspectors via internet, interconnecting with COLLECTSCPS;
- ✓ Integrated message and data system for communication between intervening parties;
- ✓ View of customer record, including register of contacts and action taken;

- ✓ Possibility of using various views to search for information;
- ✓ Possibility of working off-line without internet access;
- ✓ Flexibility in adapting to customer needs;
- ✓ Interconnection to GoogleMaps;
- ✓ Issue and management of electronic receipts, using portable printers;
- ✓ Remote management of all the information provided to users;
- ✓ Compatible with any equipment with Windows (laptops, tablet pc, computer)
- ✓ Information in real time;
- ✓ Segmented information;

The screenshot shows a login dialog box with a green background. On the left, there is a circular logo with the text "collectsnote" below it. On the right, there are two input fields: "Utilizador" with the text "DEMO" and "Password" with masked characters. Below the input fields are two buttons: "OK" and "Cancel". At the bottom right of the dialog, there is a small logo and the text "Logiomer - gestão e recuperação de créditos, sa".
